

THE SCHOLARS PROGRAMME

The Scholars Programme is a preparatory, A-Level calibre, certificate-granting programme that serves as the gateway to enter African Christian University. From there, ACU will also offer a 2-year Diploma-granting programme in Christian Worldview. An additional 2 years of study qualifies for a Bachelor's degree in targeted specialisations such as Theology, Education, Business, Agriculture and eventually all of the humanities and sciences.

PRIMARY OBJECTIVES

- 1 The Scholars Programme introduces a solidly biblical, gospel-saturated worldview as the foundation for all academic studies and practical labour. It cannot be overstated how important one's worldview is to a proper understanding and application of truth. We all live out of our worldview, that which we believe is true and important in life. As Christians, we realise that all our knowledge is analogical. Our knowledge is based on the truth expressions of God. But we cannot fully understand truth unless we are true knowers of God. Proverbs 9:10 tells us, "The fear of the Lord is the beginning of wisdom, and the knowledge of the Holy One is insight." That is where all scholarship begins: the truth of God as revealed in His word and demonstrated in His creation. The Scholars Programme is geared to teach truth in all academic disciplines, striving to know God in all knowledge.
- 2 The Scholars Programme hones and sharpens basic but necessary scholarship skills to ensure excellence at university-level studies and Christian living. It is a "gap-year" programme requiring applicants to submit Grade 12 Mock Exam results to determine their capability to write the ACU Entrance Examinations for Scholars Programme admission. ACU is to be an academically robust tertiary institution. Our students must be equipped to perform at the highest levels in thought and effort.
